Applicant claims a fuel cell assembly wherein one of said at least one elastomeric gasket or said at least one gasketing element is cured prior to joining together at least two of said plurality of sub-assembly modules, and the other of said at least one elastomeric gasket and said at least one gasketing element is cured during the joining together of said at least two of said plurality of sub-assembly modules.

The prior art of record, taken either alone or in combination, fails to disclose or render obvious a fuel cell assembly and a method wherein one of said at least one elastomeric gasket or said at least one gasketing element is cured prior to joining together at least two of said plurality of sub-assembly modules, and the other of said at
